EDUCATION

Bachelor of Technology in Computer Science Engineering
D Y Patil International University – Pune
CGPA: 7.51/10 | Expected Graduation: 2027

Class 12th
Narmada Convent Higher secondary School, Barwani
Percentage: 81.8% | Year: 2023

Class 10th
Radiant Convent High School, Rajpur
Percentage: 92.6% | Year: 2020

PROJECTS

Expense Tracker Application:

- Developed a full-stack Digital Wallet & Expense Tracker using PHP, MySQL, JavaScript, and Bootstrap with features like real-time balance calculation and transaction management.
- Designed and optimized a relational MySQL database to manage users, wallet balances, and categorized income/expense records efficiently.
- Implemented secure backend functionalities using PHP prepared statements, input validation, and automated recurring payment (auto-debit) processing.
- Built a responsive and user-friendly dashboard with transaction history, balance tracking, and CRUD operations, while resolving server and database integration issues using XAMPP.

Resume Analyzer:

- Built an AI-powered Resume Analyzer web application using Python, Flask, OpenAI API, and SQLite to automate resume screening and candidate evaluation.
- Developed features for PDF resume upload, text extraction, ATS-based scoring, skill identification, keyword matching, and personalized resume improvement suggestions.
- Integrated natural language processing techniques to analyze resumes against specific job roles and generate structured evaluation reports in real time.
- Designed a responsive frontend with HTML, CSS, and JavaScript along with a backend workflow for resume parsing, AI processing, and database storage of analysis results.

INTERNSHIP

CODTECH IT SOLUTIONS PRIVATE LIMITED – Cloud Software Developer Intern

Duration- May 2025-July 2025

- Configured AWS S3 buckets with secure access, versioning, and file management.
- Set up AWS CloudWatch monitoring and alerts for cloud resource performance.
- Built a multi-cloud architecture using AWS S3 and Google Cloud Run.
- Implemented cloud security using IAM policies and server-side encryption.

TECHNICAL SKILLS

- Programming Languages: Python, Java, JavaScript
- Web Technologies: HTML, CSS, React, Node.js
- Cloud & DevOps: AWS, Docker, Terraform
- Database: MySQL, MongoDB
- Tools: Git, GitHub, VS Code
- Concepts: Data Structures, OOP, Networking, Machine Learning

CERTIFICATIONS

- Retrieval-Augmented Generation (RAG) with Embeddings & Vector Databases - **(Coursera)**
- Data Engineering: Pipelines, ETL, Hadoop -**(Coursera)**
- Devops on AWS and Project Management -**(Coursera)**

PARTICIPATION & ACHIEVEMENTS

- Participated in hackathons and coding competition – OFFGRID 2.0 -2026 (conducted by CodeDecode DYPIU)
