EDUCATION

D Y Patil International University

B.Tech - Computer Science and Engineering

CGPA: 7.76/10

Narmada Convent Higher Secondary School

Class 12th - 81.8%

Radiant Convent High School

Class 10th - 92.6%

August 2023 – June 2027

Pune, India

2023

Barwani, India

2021

Rajpur, India

EXPERIENCE

CODTECH IT SOLUTIONS PRIVATE LIMITED

Software Developer Intern

May 2025 – July 2025

Hyderabad, India

- Developed and deployed cloud-enabled applications using AWS S3 and Google Cloud Run, improving system reliability and frontend-backend integration by 40%.
- Designed and managed scalable cloud storage solutions with AWS S3, enabling encryption, versioning, and optimized access control mechanisms.
- Implemented backend functionalities and cloud service integrations for secure storage, monitoring, and real-time application performance tracking using AWS CloudWatch.
- Configured IAM roles, debugging workflows, and deployment processes to enhance application security, resource management, and overall system efficiency by 35%.

PROJECTS

Smart Service Recommendation Platform | React.js, Next.js, Node.js, Express.js, PostgreSQL, JWT, Leaflet.js

- Developed a full-stack service recommendation platform using React.js, Next.js, Node.js, Express.js, and PostgreSQL for discovering, reviewing, and booking local services.
- Implemented JWT authentication, RBAC, and REST APIs for users, services, bookings, reviews, favorites, and admin operations.
- Built location-based service discovery with Leaflet.js and a recommendation engine using ratings, categories, and user preferences.
- Developed an admin dashboard with analytics and CRUD operations while optimizing PostgreSQL schemas for performance and scalability.

AI Resume Analyzer & Recruitment Platform | React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Recharts

- Developed a MERN-based recruitment platform for ATS resume analysis, job-role matching, and candidate evaluation.
- Built a resume parsing and scoring engine using keyword extraction, section analysis, and ATS-based ranking.
- Implemented JWT authentication, RBAC, candidate ranking, application tracking, and recruiter hiring workflows.
- Designed analytics dashboards with Recharts for ATS scores, skill-gap analysis, application insights, and job-match metrics.

Smart Personal Finance Management System | HTML, CSS, PHP, MySQL, JavaScript, Bootstrap, Chart.js

- Developed a finance management system for expense tracking, budgeting, and financial analytics.
- Implemented recurring transactions, expense prediction, and Rule-based spending insights for financial planning.
- Built a responsive dashboard with interactive charts, dark mode, search, filters, and mobile-friendly UI.
- Integrated secure authentication, password hashing, receipt uploads, profile management, and PDF export functionality.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL

Frontend: HTML, CSS, React.js, Next.js

Backend: Node.js, Express.js, REST APIs

Cloud & DevOps: AWS (S3, IAM, EC2, CloudWatch), Google Cloud Run, Docker

Databases: PostgreSQL, MongoDB, MySQL

Tools: Git, GitHub, Linux, VS Code

Core Concepts: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

Retrieval-Augmented Generation (RAG) with Embeddings and Vector Databases – Coursera [Certificate Link]

DevOps on AWS and Project Management – Coursera [Certificate Link]

Data Engineering: Pipelines, ETL, Hadoop – Coursera [Certificate Link]
